

Mitsue AI Data Center - Forest-Team-Led Model (Alternative)

Discussion draft - Local Forestry Partner as the operational hub for logging, replanting & processing

Working draft - v1.1 - 2026-08-08

Very early draft - concept only. Nothing here is decided or agreed. Starting point for discussion, not a proposal to sign.

What's different: Local Forestry Partner (8 crew) leads execution. Village Hall ↔ more trees ↔ NGO handles formal liaison; NGO delegates day-to-day coordination to Local Forestry Partner. NAIST stays direct.

Gov NGO Co. Forest Team Academia
Dashed = tentative
