

Mitsue AI Data Center - Forest-Team-Led Model (Alternative)

Discussion draft - Mitsue Kanko as the operational hub for logging, replanting & processing

Working draft · 2026-08-01

Very early draft - concept only. Nothing here is decided or agreed. Starting point for discussion, not a proposal to sign.

What's different: Mitsue Kanko (8 crew) coordinates directly with Village Hall, more trees & NAIST - not brokered through the NGO. NGO narrows to a legal/financing wrapper.
