

Mitsue AI Data Center - Repository File Structure

Top-level folder map with function of each area, generated from the working repo tree

1. Folder Map

Top-level directories and how docs/, research/, energy-forest/ and Docs extra/ break down

Scroll/pinch to zoom, drag to pan, or use the +/- controls. Hover a block for its description, click to jump to it in the table below.

2. Function by Folder

What each area is for and what lives in it

Folder	Function
--------	----------

docs/	Canonical output of the project. Every subfolder is a deliverable type; each document ships as a Markdown source plus a rendered PDF, kept in sync via <code>tools/convert_md_to_pdf.js</code> .
docs/strategy/	Business case, cashflow model, WBS, EVM plan, founding charter, phases/funding flowchart.
docs/governance/	Permits, village-office onepagers, Koryukan hours-exception request, mascot permit.
docs/marketing/	Brochures (trifold A3/A4), frontpage, impact handout, stakeholder graphics.
docs/outreach/	Cold-outreach email drafts and the outreach tracker, one file per contact/organization.
docs/meetings/	Meeting prep notes, talking points, entity-structure options (A/B/hybrid), Q&A briefings.
docs/energy-forest/	Biomass CHP technical, economics, history, ecology, grid-mapping and workforce material, split into topic subfolders (below).
chp-technical/	Maker shortlist, steam-vs-gasification comparison, H2-vs-electricity-vs-DC analysis, forest-power-compute loop diagram.
ecology/	Academic summaries on planted-landscape sustainability and forest restoration (Yamaura 2012 et al.).
economics/	Resource-potential studies (Leiter 2022), FIT/grid economics check, wildlife-prevention savings talking point.
grid-mapping/	Kansai T&D grid maps and prior-consultation spreadsheets/templates for the 6.6kV interconnection.
history/	Council-minutes forestry findings, 100-year-plan transcription, Meiji/postwar forestry policy summaries, collective timeline guide.
misc/	Ungrouped energy-forest items (biomass chart, ad hoc notes).
re-plan-alignment/	How the project maps onto Mitsue's MoE-funded Village Renewable Energy Plan.
source-scans/	Raw scanned source PDFs (village-hall handouts, forestry brochures) awaiting transcription.
workforce/	Forest-worker interview questions, workforce/energy plan, workforce-relocation strategy.
docs/field-survey/	Heritage tree field guide and school tree-survey proposal (bilingual).
docs/team/	People register - who's who on the project.
docs/reference/	Background reading and external reports (e.g. China rural data centers, this file).
docs/briefs/	One-off task/context briefs for specific people or hand-offs.
docs/faq/	Standing Q&A on community participation and transparency questions.
decks/	Slide and funding presentations (pptx/pdf), Gantt chart, finance workbook - binary-first, separate from docs/.
research/	Raw structured source data mined from external documents (council minutes, newsletters, action plans, wildlife plans), mostly DuckDB + CSV, feeding docs/energy-forest and docs/outreach.
infra/	OpenProject VPS deployment (Docker, backups, restore scripts) and the standalone people-register PHP app.

tools/	The doc pipeline: <code>convert_md_to_pdf.js</code> (canonical md/html to PDF converter, mermaid-aware), mermaid render/validate scripts, header/date updater.
agent/	Claude's own persistent persona/identity files (IDENTITY, SOUL, USER, HEARTBEAT) - not project content.
memory/	Daily working-memory logs plus a separate dream-diary subsystem (dreaming/light, deep, rem).
tree-survey/	Self-contained deployable Flask app for school tree-survey fieldwork (templates, DuckDB, photo storage).
assets/	Images, logos, and Mitsue-kun mascot art used across docs and decks.
3d models/	Blender assets (e.g. the mascot gift box) for physical/3D deliverables.
skills/	Reusable doc/report conventions (headers, report-recovery) referenced by the pipeline.
Docs extra/	Legacy village-hall scans and unsorted source material not yet organized into docs/ (below).
Bidding information/	Ex-school (Dome/Ao Bara billiards) bid disclosure requests, due-diligence reports, assembly seigan/chinjo docs, toilet-facility disclosure.
CHP biomass/	Mini-CHP and DIY gasifier notes, candidate CHP sites, forest-carbon/growth models, Sugano biomass proposal, Ushitoge processing center.
Dome school from village website/	Original village-site zoning/tender forms and drawings for the ex-school property.
Extra pictures Aizumisato STP/	Reference photos of the Aizumisato sewage treatment plant network setup.
Facilities/	Community Development Promotion Division info requests, Koryukan usage records 2023-2025.
Fairytale/	"Tsuemi-hime" children's fairy tale (JP/EN) and two-page summaries, used for outreach/storytelling.
Mayor_vice_mayor_forest_team_gifts/	Kaya-seed poem and meeting-card gifts prepared for village officials.
mitsue_files from Village hall/	Official village hall documents: RE plan overview + translation, financial analyses, land registry, disaster map, meeting minutes.
Mitsue pictures/	General village/project photography and mascot imagery.
NGO setup/	Ippan Shadan Hojin (NGO) setup guides, checklists, teikan drafts, pro bono law firm correspondence (Baker McKenzie, Morgan Lewis), Koshiba/Kato meeting notes.
NPO setup/	Alternative NPO-entity setup checklist (superseded by the NGO/Ippan Shadan Hojin route).
Thoughts/	Informal thoughts/guideline notes (JP/EN), pre-brainstorm material.
chat-exports/	Archived Claude conversation exports kept for provenance.
