

Mizuho Meeting Prep — 2026-08-05, 11:00–12:00 JST

Counterpart: 上坂奈穂様 (Nao Uesaka), Sustainability Promotion Department, Strategy Promotion Division, Global Investment Banking Division, Mizuho Securities — plus one colleague joining.

Format: Zoom (link in her email)

Goal for this meeting: Understand how her team works and gauge whether/how Mizuho can support the project. Keep it general — save deep structuring questions (Option A vs B entity choice) for a later meeting.

Questions to ask

How they work:

- ☐ Can you tell us more about what your team normally does day to day? What kind of projects do you usually work on?
- ☐ When a project like ours comes to you, what's the typical process from here — what are the usual next steps?
- ☐ How does your team make decisions internally — is it just the two of you, or does this go through others at Mizuho before you can commit to anything?
- ☐ At what point would this move from "getting to know the project" to something more formal, like an internal proposal or mandate on your side?

Whether/how they'd help:

- ☐ Based on what we've shared, does our project fit the kind of work you usually support?
 - ☐ If you decide to help us, what would that support actually look like in practice — advice, introductions, financing, something else?
 - ☐ Is there a cost to us at this stage, or is this still relationship-building on Mizuho's side?
-

Notes during meeting

(space for answers / follow-ups)
