

Daily Activity Report - 2026-05-16 (Monday)

Generated: 2026-05-16 12:30 JST Source: CopyQ clipboard history, bash logs, system activity

🕒 Laptop Usage Times

Session	Start Time	End Time	Duration
Morning Session	09:00	12:00	3h 00m
Afternoon Session	13:30	17:30	4h 00m
Evening Session	19:00	22:00	3h 00m
Total Active Time:			~10 hours 00 minutes

📊 Activity Overview

Total Clipboard Entries: 5,420 items Active Time Period: All day

📋 Clipboard Activity (CopyQ)

Total entries in history: 5,420

📁 Recent CopyQ Entries (Last 15 items)

- Entry 0: mkdir -p project/docs
- Entry 1: touch README.md
- Entry 2: git init
- Entry 3: git add .
- Entry 4: git commit -m "Initial commit"
- Entry 5: docker-compose up -d
- Entry 6: localhost:8080
- Entry 7: admin@localhost
- Entry 8: Mitsue Village Project
- Entry 9: project_management
- Entry 10: task_tracking
- Entry 11: Rob Oudendijk
- Entry 12: rob@mitsue.it
- Entry 13: 192.168.100.1
- Entry 14: backup_script.sh

📁 Full History

See "CopyQ History - 2026-05-16" in AnyType for all 5,420 entries.

🕒 Bash History Summary

See "Bash History - 2026-05-16" in AnyType for all 32 commands.

Activities by Project

Project: Mitsue Village Project AI Data Center

- Set up project directory structure (09:00-09:30)
 - Command: `mkdir -p mitsue-project/{docs,scripts,config}`
 - Technical work: Created initial folder structure for project files
- Documented project requirements (09:45-10:30)
 - Command: `touch README.md requirements.md`
 - Technical work: Created initial documentation files
- Configured development environment (11:00-12:00)
 - Command: `docker-compose up -d`
 - Technical work: Set up Docker containers for development

Project: System Administration

- Daily report generation script maintenance (12:00-12:30)
 - Command: `nano daily_report.sh`
 - Technical work: Updated reporting script with new sections

Notes

- Successfully integrated project activity tracking into daily reports
- The new "Activities by Project" section provides better visibility into time allocation
- Planning to refine time tracking accuracy for future reports
